Team AJT Merch Store

Project concept and objectives

- Originally intended to make a new merch store for NSC
- Transitioned to a prototype
 - Intended to mimic proper merch store as much as possible
- Changed Directions
 - Flexible Ecommerce Webpage

Challenges and Process

What did you learn that was new?

- Learned Supabase as a backend-as-a-service platform, including database design and API integration
- First time designing a product variants system to track inventory by size and color combinations

What are some existing skills you improved?

- Improved debugging skills through resolving Cypress test timing issues and React state management bugs

What interpersonal / client skills did you develop or improve?

- Improved communication through bi-weekly sprint planning and weekly status reports
- Learned to adapt project scope based on shifting priorities

- Gaining experience with Mantine UI's prop-based styling system for building responsive components
- Setting up React Router for client-side navigation and dynamic route parameters
- Improving understanding of React patterns including hooks, derived state, and component lifecycle management
- Writing detailed code comments to document Mantine and Cypress syntax for collaborative codebases

Learning and development

Feedback from our business stakeholders

- Informative
- Some points of interest to them
 - Discounts or use of financial aid at the merch store for students needing it.
 - Attracting interest with discounts
 - Suggested first 100 people to engage with advertising would receive a discount code.
- Approved of our direction
- Made a point to include contactless payment options.

The background of the slide features a smooth color gradient transitioning from a vibrant pink on the left to a warm orange on the right. A white, stylized staircase graphic is positioned diagonally across the upper half of the image, starting from the bottom left and ascending towards the top right. The word "Demo" is written in a dark blue, serif font in the bottom left corner.

Demo

Summary

- Moving forward with our new direction.
 - Focusing on ingenuity and client experience.
- Flexible Ecommerce
 - Fit the needs of many different Ecommerce applications.
